

Sports Students as Mentors for boys and young men?

Are you:

- An academic working in sport, education, health?
- A teacher or a staff member providing educational support?
- Do you work for a sport in the community organisation or as a sports coach?
- A youth worker?
- A mental health worker?
- Interested in mentoring?
- A professional working on boys and men's concerns?

Come and find out about the Sports Students as Mentors project

An undergraduate programme developed by five European universities and an NGO.

What's it all about?

- Why we need to work with boys!
- How does a strengths-based, gendered approach to mentoring help boys' educational attainment?
- How does it assist their emotional and mental health?
- What is the role of sport and sports mentors in work with young males?
- What are you doing to help boys and young men?

The event will provide a platform to explore wider work on health, education and social concerns affecting boys and young men and an opportunity to discuss local, national and international examples of good practice.
